### **Together We Cook**

Another project called “Together We Cook” finished its’ first semester of inter-generational cooking with senior volunteers and Thompson School grade 3/4 students. The project begins again in the fall and wraps up by December 2009.

The children have learned many skills from the seniors and the seniors have enjoyed getting to know the children through 8 sessions of cooking together. Intergenerational learning, sharing and growing together takes place each time they get together.

Thank you to the lovely senior volunteers from the Regina Senior Citizens Center, the enthusiastic students and teacher of the Grade 3/4 class at Thompson School and our very skilled, patient and knowledgeable facilitator, Karen. We look forward to returning in the fall.
